NOTES TO THE TEACHER

This book contains answers to the exercises in the *English I Workbook*, which is designed to be used with *The Rosetta Stone® English I* computer program.

People who are learning English come from all parts of the globe and many different backgrounds. The exercises in the *English I Workbook* have been developed with this wide range of backgrounds and abilities in mind. The hope is that students will find them enjoyable as well as useful reinforcement for what they are learning through the *The Rosetta Stone* computer program. These written exercises also build on the computer lessons to help students develop writing skills.

In addition to the exercises offered here, you may want to provide some other kinds of written exercises geared to your students' needs. For students learning our alphabet, for instance, exercises asking them to match words in upper-case and lower-case can be useful. More advanced students can be given lengthier open-ended writing assignments.

The Rosetta Stone program focuses on four areas of language learning:

- Listening comprehension
- Reading comprehension
- Speaking
- Writing

The matching exercises in the computer program give students an excellent start on listening and reading comprehension. The dictation exercises and the exercises in this Workbook give students practice in writing. The voice record feature allows students to work on their pronunciation. Additional speaking practice can be provided in your classroom.

The *English I Workbook* contains the following exercises:

- Eighty-four Worksheets: one for each chapter except the review chapters
- Word Search Puzzles: one for each five chapters
- Crossword Puzzles: one for each five chapters

Suggestions for use:

- As added practice in class or at home
- As oral/listening practice
- As added vocabulary review
- As daily quizzes
- As a quick check for comprehension of each chapter

Scoring:

- All worksheets and puzzles are based on a total of 100 points.
- Worksheets have 20 items, for a possible value of 5 points each.
- Puzzles contain 25 words, for a possible value of 4 points each.

The teacher is free to alter the weighting of the scoring.

Fill-in answers on the worksheets may vary depending on the teacher's style of presentation and/or the ability level of the class. The responses given in this answer key parallel the text presented in *The Rosetta Stone* program. However, any appropriate response should be considered correct. No answers are provided for the open-ended writing exercises in Units 5 and 8.
